COMPASS for kids provides education and support to improve the skills and transform the perspectives of the adults and institutions that matter most to children.

COMPASS for homeless families works to end family homelessness. We collaborate with public and private organizations, businesses and individuals to provide high impact services and supports that promote self-sufficiency and stability in housing for homeless and at-risk children and their families.

Each year, 96,000 children are homeless in Massachusetts – COMPASS works to provide a brighter future for these children.

Please partner with us to make sure these children and their families find their ways permanently home.
